Controlling Officer:

Lufwanyama is a generally rural district and the Constituency Development Fund Committee (CDFC) has prioritised improvement of road infrastructure in the implementation of the 2024 CDF allocation of K30.6 million. The key output is the procurement of Heavy Equipment such as a Grader, an Excavator and a Lowbed truck. This entails that very little will be done in 2024 for Community Projects such as construction of schools and clinics. The procurement of additional 3,313 School Desks in fulfilling the Presidential Pronouncements has been budgeted for in order to increase on the 5,881 that have so far been procured since 2022. According to the guidance from the Ministry of Local Government and Rural Development (MLGRD), an allocation has been set aside for an Ambulance and Six (6) Motorbikes for Chiefs Retainers. The rest of the allocation under Community Projects is the Disaster Contingency.

The Local Authority has also allocated K5.8 million for Empowerment Grants and Loans (for Youth, Women and Community). This is coupled with a K5.8 million for Secondary School Boarding and Skills Development Bursaries. Lastly, K1.5 million is the Administrative Component.

A K1.1 million has been allocated for the purpose of forming WDC and facilitating for their activities and a wider range of all it takes to engage the community meaningfully.

Integrated Development Planning is an approach that embraces all aspects of development in order to achieve a holistic level of service provision and development outcomes. There are three (3) Sub-Programmes to be implemented under this programme:

Spatial Planning

This will involve land development activities such as opening up road access for plots that the Local Authority has offered out. Among other things, there is Development Control, Land Inspection and resolving Land Disputes. K1.6 million has been allocated for this programme in the 2024 budget.

Environmental Planning

Environmental Sustainability is one of the Strategic Development Areas (SDA) under the Eighth (8th) National Development Plan (8NDP). It is hence essential that the Local Authority mainstreams environmental sustainability in all spheres of development under implementation. A total of K215, 161 has been set aside for Environmental Planning in 2024.

Socio-Economic Planning

The Socio-Economic Planning Sub-Programme has been allocated K1.2 million for the year 2024. Social ills in the district will need to be mainstreamed and relentlessly fought by the implementation of programs that will raise the living standards of the people. In all essence, whatever is done is done for the people.

The Public Health and Environmental Protection programme is made up of five (5) Sub-Programmes:

Cemetery and Funeral Services

Lufwanyama Town Council currently has no Cemetery. There are no funeral services being provided. It is because of the hardships that people face for lack of these services that the budget for 2024 includes such services. The intention is to develop a modern cemetery and provide services in an orderly manner and K52, 341 has been allocated for the initial logistics.

Health Inspections

Under this Sub-Programme the Council has planned to conduct inspections through the Constituency of Lufwanyama. This will include confiscating foodstuffs that are found wanting or expired from shops. The unsuspecting general public should be protected from the abuse of deception.

Pest Control
Solid Waste Management

Solid Waste Management is one of the key mandates of any Local Authority. Currently, Lufwanyama has been fairing very well in this regard. However, there are improvements to be made in 2024 such as fencing the Damp Site, Installing a sign post to the Damp Site, and procurement of 20 skip bins for the Central Business District (CBD) and the surrounding communities. Actually, of all Sub-Programmes under this Programme, Solid Waste Management has the highest allocation at K1.8 million.

Water Supply and Sanitation Services

Water is life, goes the saying. There are high prospects that Nkana Water and Sanitation Company will commence a mega water project to uplift the face of Lufwanyama. In the meantime, the Council has allocated K678, 908 towards the cause of drilling boreholes under rural water and responding to any water related matters that may arise.

The Local Authrhority has also budgeted for Six (6) sensitisation meetings with the community on matters relating to revenue and compliance. Monitoring the performance of each revenue collection point has been planned for- that six (6) such exercises be conducted in 2024.

Further, the Council has gone out of its way to train Ward Development Committees (WDCs) as Revenue Collectors. This is in line with the current laws of Zambia that also allow a percentage of this revenue to be retained in the communities. All these activities will be coupled with Monthly (12) Reports on Revenue Collection and the formation of a Task Force for specific needs.

The table above indicates that the Council in attempting to expand its revenue base has targeted to prepare update its Valuation Roll,Identify 10 new revenue check points and prepare atleast 60 demand notices.
